SUMMARY

Front-End Developer with 2.5 years of experience building responsive and high-performance web applications using React.js, Next.js, and modern JavaScript. Experienced in creating reusable components, optimizing performance, and collaborating with cross-functional teams to deliver scalable user-focused solutions.

SKILLS

Front-End: React.js, Next.js, JavaScript (ES6+), Redux, HTML5, CSS3, SASS, Tailwind CSS.

UI & Performance: Responsive Design, Performance Optimization, Reusable Components. **Tools:** Git, GitHub Bitbucket, Axios, Postman, Jira, REST APIs.

WORK EXPERIENCE

Front-End Developer | Infinite Tiers Inc (2021 – 2023)

- Built responsive web applications using React.js, Next.js, and Redux.
- Created reusable UI components and efficient state management.
- Optimized performance through CSS/JS improvements and image optimization.
- Collaborated with designers and backend developers using GitHub, Postman, and Jira.

Freelance Front-End Developer (2024 – Present)

- Developed complete front-end projects including authentication flows and e-commerce features.
- Delivered portfolio-ready applications with live demos and GitHub repositories.

PROJECTS

Tiban – Quran Study App

- Developed a responsive mobile app demonstrating full-stack integration.

Autocado – E-commerce Car Parts Platform

- Implemented advanced product search and seamless checkout flow.

DukesHill – Online Food Ordering Platform

- Built dynamic menu selection and real-time UI updates.

Park Now – Graduation Project

- Built a mobile app for parking reservations using QR codes and real-time booking.
